

## Science

L.O: Describe the ways in which nutrients and water are transported within animals, including humans.

Think about the heart. Do you know any of the names for the different parts of the heart? Do you know the functions of the different parts of the heart?

Watch these videos which will help you to label the different parts.

<https://www.youtube.com/watch?v=CWFyxn0qDEU>

<https://www.youtube.com/watch?v=ep4cQrYFL0w>

<https://www.youtube.com/watch?v=KU-VYuhCGIk>

After this, you will write an information text about the heart works. You may need to watch the videos more than once to support with writing your information text.

You might want to include subheading such as:

- What is the heart?
- What are the different parts?
- What does each part do?
- How does blood reach the different parts of the body?
- Different blood vessels

## Art

L.O: To create a sculpture in the style of Alberto Giacometti

We will be looking at the artist called Alberto Giacometti. Research his art work – what type of art does he produce? Can you give your opinion of his artwork? How do you think he makes his work?

<https://www.youtube.com/watch?v=M58oMKBO7S0>

<https://www.youtube.com/watch?v=9jeBISlIVgo>

Try making your own sculpture in the style of Alberto Giacometti – can you think of a design that links to our I have a dream topic?

## Music

We have been learning the folk song – Gospel Train. Listen to the song here - <https://www.youtube.com/watch?v=WmqaBTn1V0s>.

Learn the lyrics to the song. Do you notice any patters with the music.

Can you create your own soundscape of a steam train to add to the beginning, between the verses and at the end of the song?
