

Answers

Fluency

1) Spoon = 5ml

Can = 500ml

Pot = 5,000 ml

2) 500 ml

3) 2,000 ml **and** 2 l

Problem Solving

4) 160ml

5) 16.8 litres

Reasoning

6) Example answer: No, because 850 divided by 8 is just over 100ml which is smaller than the capacity of a juice glass.

7) 12 litres

8) No – 6 people would all have cups of tea smaller than 100ml, which isn't enough.
